

## Gamification

Gamification refers to applying elements of a game in non-game environments. By applying gamification to our project, users can obtain achievements upon completing a certain task. Some obtainable achievements in the website are given below:-

Achievement	Description
1. Welcome!	Awarded when a user creates an account.
2. First Job Search	Awarded when a user searches for their first job
3. Beginner	Awarded when a user searches for ten jobs.
4. Intermediate	Awarded when a user searches for fifty jobs.
5. Expert	Awarded when a user searches for hundred jobs.
6. Job hopper	Awarded when a user changes their job based on the system recommendations
7. Competer	Awarded when a user chooses a job of high demand
8. Explorer	Awarded when a user views information regarding occupation like occupation information, certifications and learning material.
9. Trend Tracker	Awarded when a user views a trend like occupation trend, job postings, occupation demands and news.
